

LOOK 04

NEW YORK GLAM

Black, white and brass is the winning trifecta in this classic urban bath. Black and white is dynamic but can look cold and stark. Here, it benefits from the burnish of brass. Cohesion is created by carrying the metal to all fixtures and hardware. Subway tiles (Thanks NYC!) installed on the horizontal and vertical have dark grout for graphic impact, which is reinforced by the black-framed glass shower and hexagon tile floor.
